

Your book/work in progress

Your name/screenname/pseudonym/nom de plume

This progress chart is blocked off in 500-word increments; as you advance, you can color in the blocks as a visual indicator of your progress. For those days when progress is slow, each 500-word block is divided into smaller, 25-word increments—write two sentences and color in a small block if you can't come up with anything else! There are also ten “excuse blocks” for those times when you just can't write, for whatever reason. (Just don't use them too often.)
